

LILKER RANKED ONE OF THE TOP 10 MULTIDISCIPLINARY ENGINEERING FIRMS TO WORK FOR IN THE UNITED STATES

NEW YORK, July 8—Lilker Associates Consulting Engineers, a multidisciplinary MEP engineering firm headquartered in Manhattan with offices on Long Island and in Falls Church, VA, was named one of the best firms to work for by ZweigWhite, publisher of *CE News* and *Structural Engineer* magazines, as part of its annual “2013 Best Multidiscipline A/E Services Firms to Work For” survey (www.zweigwhite.com/awards/best-firms-to-work-for/).

The prestigious ranking is based on comprehensive evaluations of firm culture, workplace practices, employee benefits, employee retention rates, professional development, and more - both from the management and staff’s perspectives.

“We’re gratified to be among the best firms to work for, and to be the only multidisciplinary engineering company in the NY Tri-state area ranked in the top 10. We will use this evaluation to benchmark our performance alongside other accomplished firms in the industry,” said CEO and President Bruce Lilker, P.E. “The survey provides valuable insight into what makes Lilker a great place to work, and will help us to maintain an environment that attracts and retains the brightest professionals in the industry.”

The winners were announced at a conference and celebration at the Hard Rock Hotel in Chicago, June 20-21, with discussions and presentations on a variety of topics such as firm culture, open book management and mentoring.

Serge Budzyn, P.E.

“It is a great honor to be recognized for having a workplace where people genuinely feel happy and valued,” said Lilker Principal Serge Budzyn, P.E., who attended the event and accepted the award for the firm. “This award is confirmation of our firm’s core values. We know that personal and professional satisfaction means outstanding service for our clients.”

The award comes at a time when the firm is in the midst of strategic growth with the acquisition of EMO Energy Solutions (EMO), a Falls Church, VA-based company in the DC Metro area specializing in energy audits, energy modeling, commissioning and LEED consultation services. Managed from the Falls Church office, Lilker EMO Energy Solutions provides comprehensive sustainable building systems design and energy conservation services on projects throughout the U.S.
