

## Healthcare Expert Louis Piccirillo Joins Lilker Associates

**New York, September 25, 2015** Lilker Associates Consulting Engineers announced the recent appointment of Louis Piccirillo, PE, as Senior Healthcare Engineer in the firm's MEP Engineering Division in Manhattan. Piccirillo is a seasoned engineer with healthcare expertise, and has three decades of experience designing systems for nearly every type of facility.

Prior to joining Lilker, Piccirillo worked on numerous high profile projects for notable clients including New York Presbyterian Hospital, Syosset Hospital, Nassau Community College, New York University, University of Rochester, Cablevision and the MLB Network. He is the co-author of the New York Aquarium Damage Assessment report prepared for FEMA after Super Storm Sandy, and was the HVAC systems designer for the resulting restoration of the aquarium at Coney Island in Brooklyn.

Piccirillo is currently providing a range of services on multiple healthcare facilities projects for Lilker, including due diligence, lease assistance, surveys and design. His projects include the new Institute for Community Living outpatient and community services building; a new emergency wing at Metropolitan Hospital; an outpatient facility for New York Presbyterian's New York Hospital Queens; and various projects for Staten Island University Hospital.

"Lou is the consummate professional. He applies his many years of engineering and project management experience to designing the best combination of systems to satisfy the client's needs," says Michael Leonick, PE, Principal and Director of Healthcare Design.

Piccirillo received his Bachelor of Science degree in Mechanical Engineering with high honors from the Rochester Institute of Technology. He is a former lecturer at the New York University School of Continuing Education, and was the sole proprietor of an MEP engineering firm from 2000 to 2009
